**SAVING OUR LIVES**

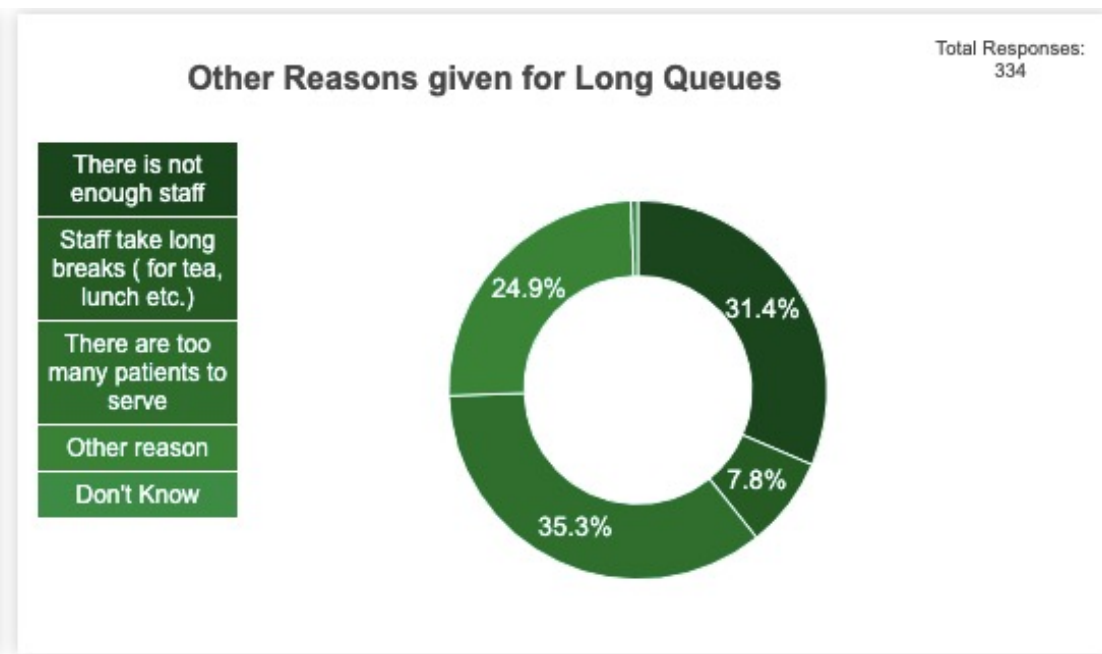

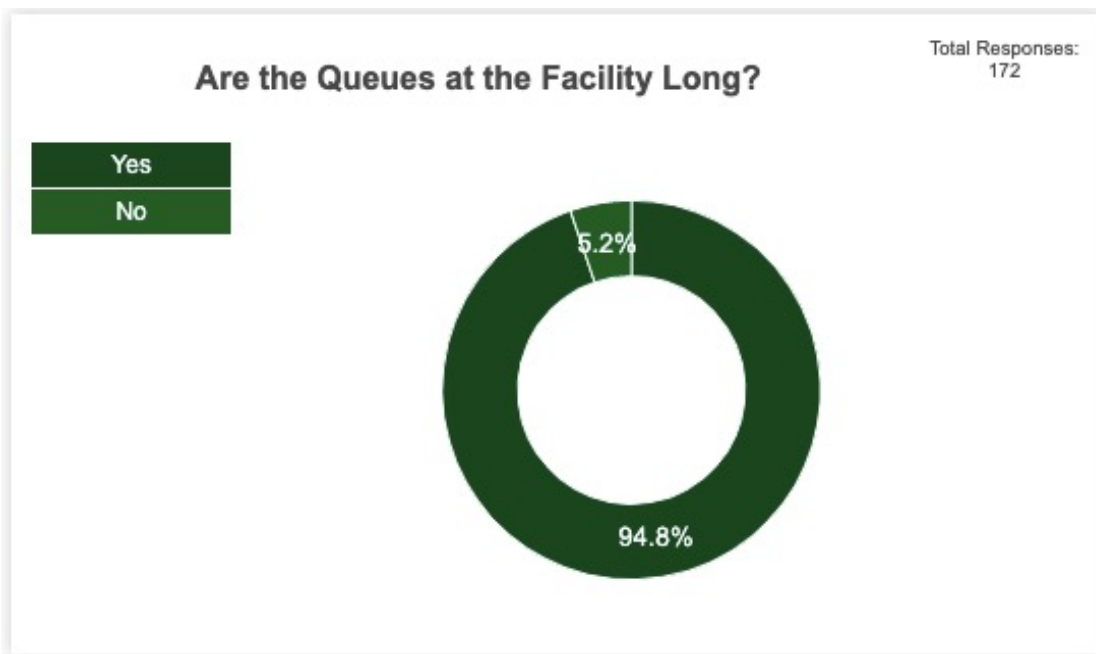

# Capricorn District 2021 Q1 DATA REPORT

February 2021

# FACILITY HOURS & WAITING TIMES

# According to Ritshidze monitoring data, 94.8% of patients report long queues.

**The shortest time is reported at  
Perskebult Clinic (4hrs38min) the  
longest is at Seshego (6hrs31min)**

**Average waiting times at facilities**

Perskebult Clinic	4:38
Nobody Clinic	4:39
Buitestraat Clinic	5:44
Rethabile CHC	5:45
Seshego IV Clinic	6:31

# PROPOSED SOLUTIONS

# FACILITY STAFF

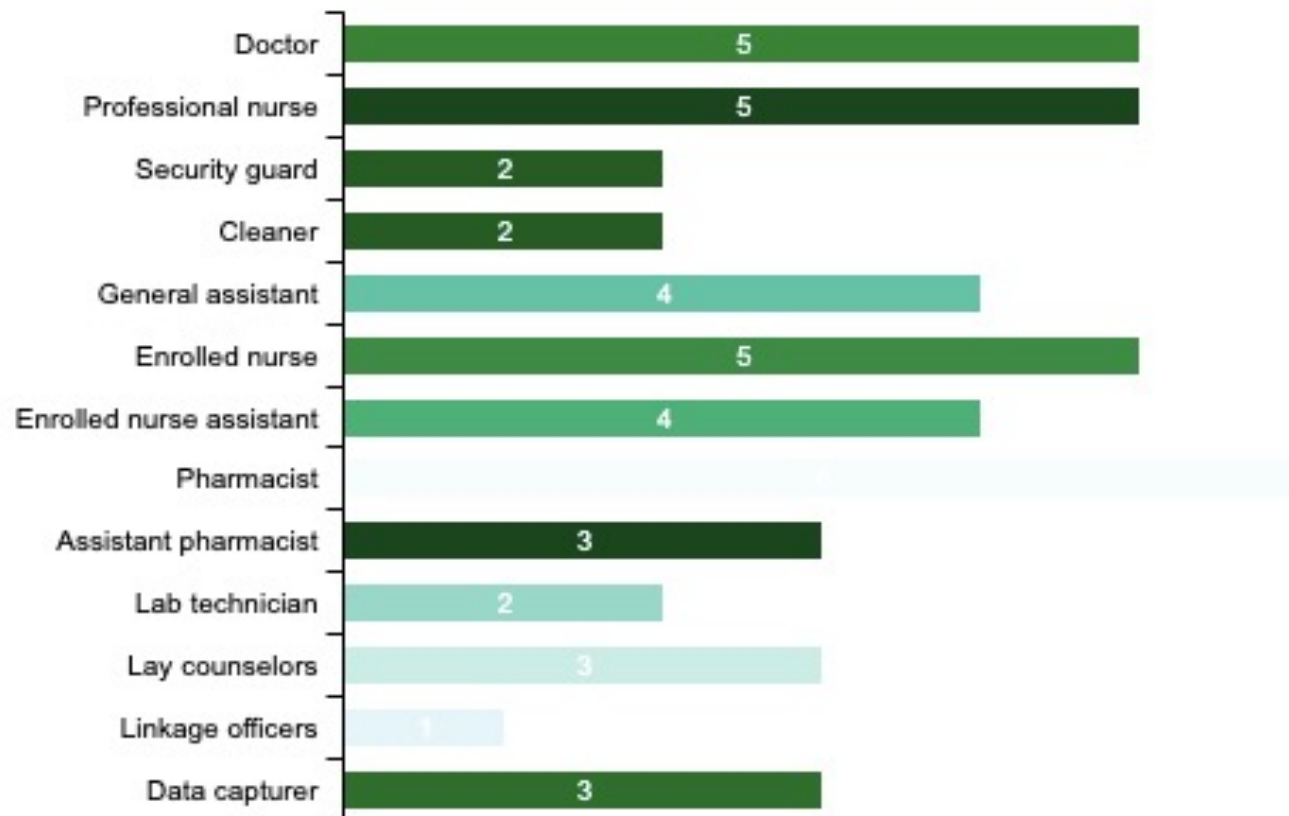

# Monitoring data from Ritshidze show both patients and managers see shortages of staff

**46.6%** of patients said there was never enough staff to meet patients' needs at their clinic.

**100%** of facility managers reported that there was not enough clinical and/or non-clinical staff at the facility.

Total Responses:  
45

## Which Cadres are Understaffed?

## The cadres most commonly reported as being understaffed:

- professional nurses
- doctor
- enrolled nurses
- cleaners

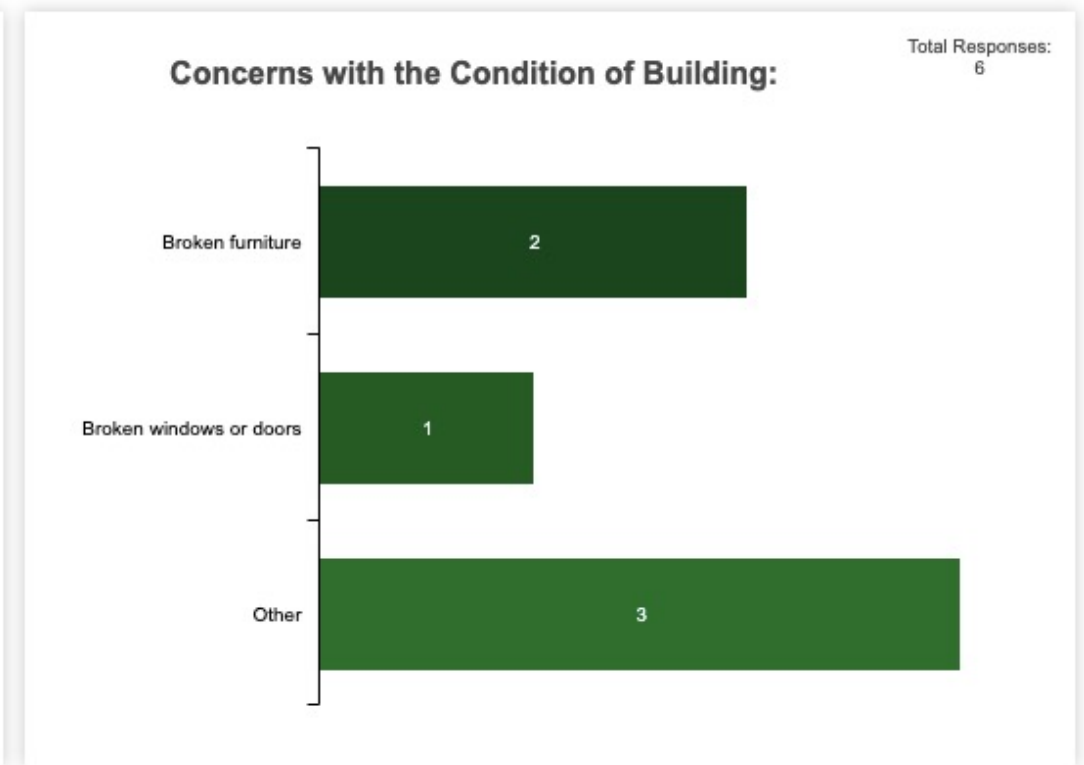

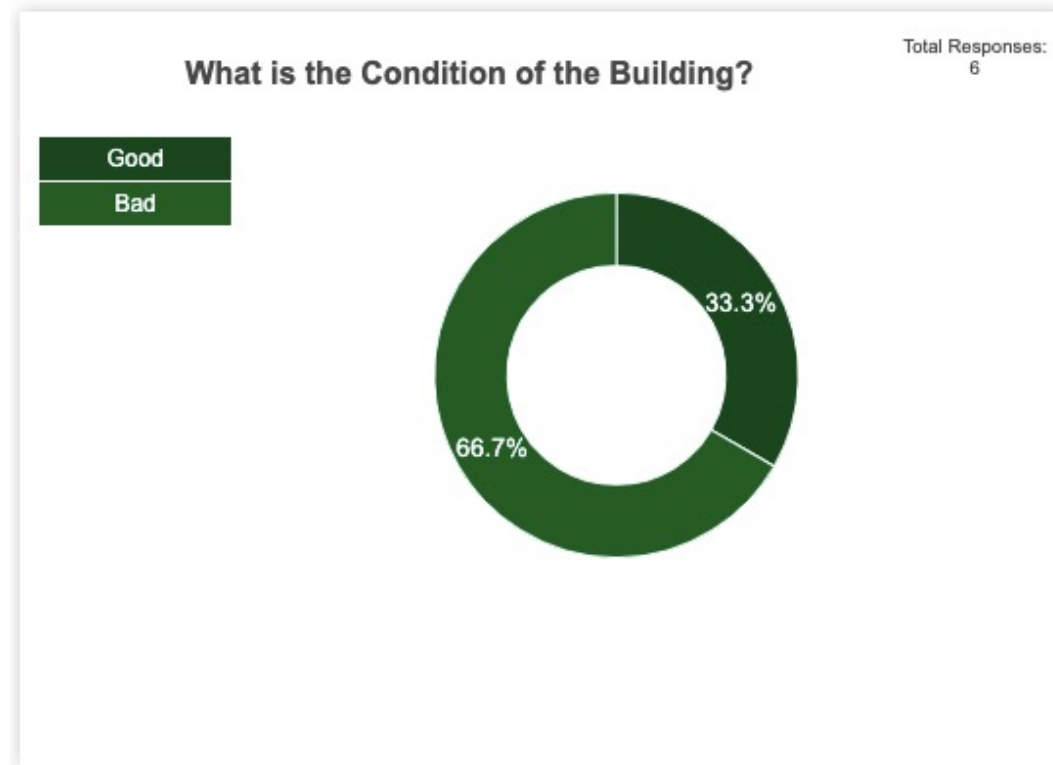

# PROPOSED SOLUTIONS

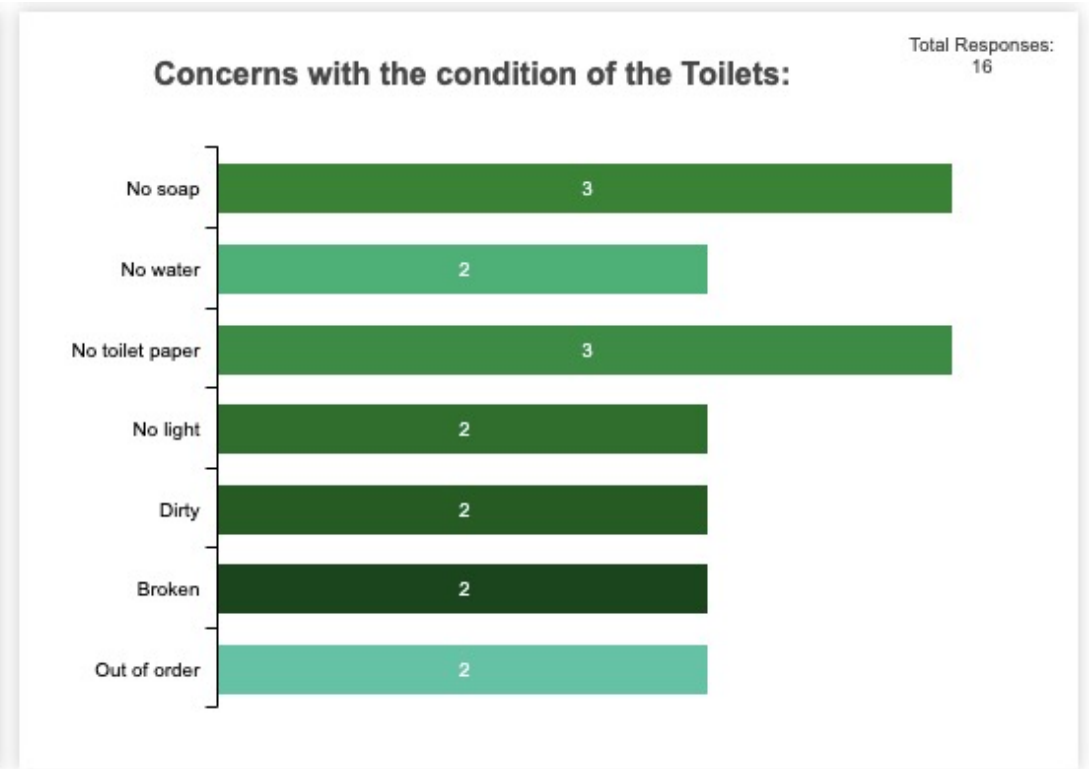

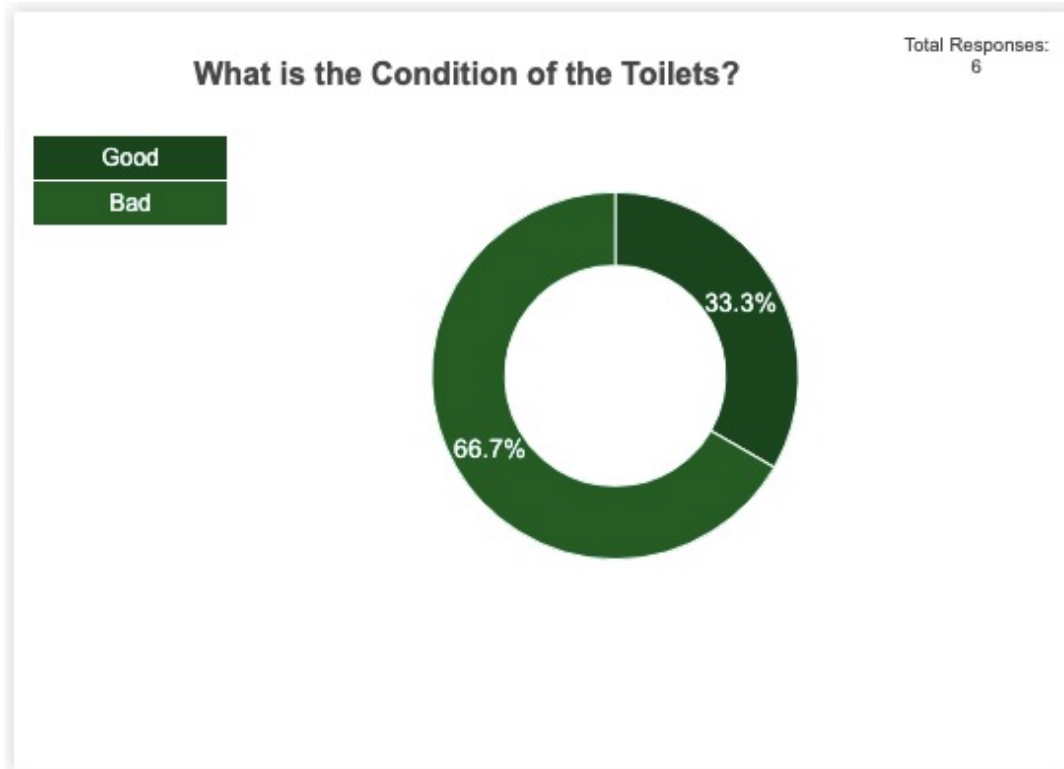

# CLINIC CONDITIONS & PATIENT SAFETY

# Of all the clinics observed 66.7% were in a good condition

# Ritshidze data shows that 100% of clinics are observed to have toilets in bad condition

# Facility Managers at 5 sites report there is not enough space at the clinic to meet patient needs and something additional is needed

Province	District	Number of Facilities Assessed	Facility Manager: Is there enough space in the facility to meet patient's needs?			SCORE
			Yes enough space	No, we require something additional	Don't know	
Limpopo	Capricorn	5	0	6	0	No, we require something additional

# 3 facilities need more space for patient medical care — another 4 facilities needed more space for Data Capturers

Province	District	Number of Facilities Assessed	What do you need more space for?									
			Patients waiting space	Rooms for medical care	Private HIV counseling or testing	Laboratory space	Files	Data capturers	Adherence clubs	Pharmacy	Storage	Other
Limpopo	Capricorn	5	6	3	0	0	3	4	4	4	4	3

# PROPOSED SOLUTIONS

# ARV COLLECTION & ACCESS

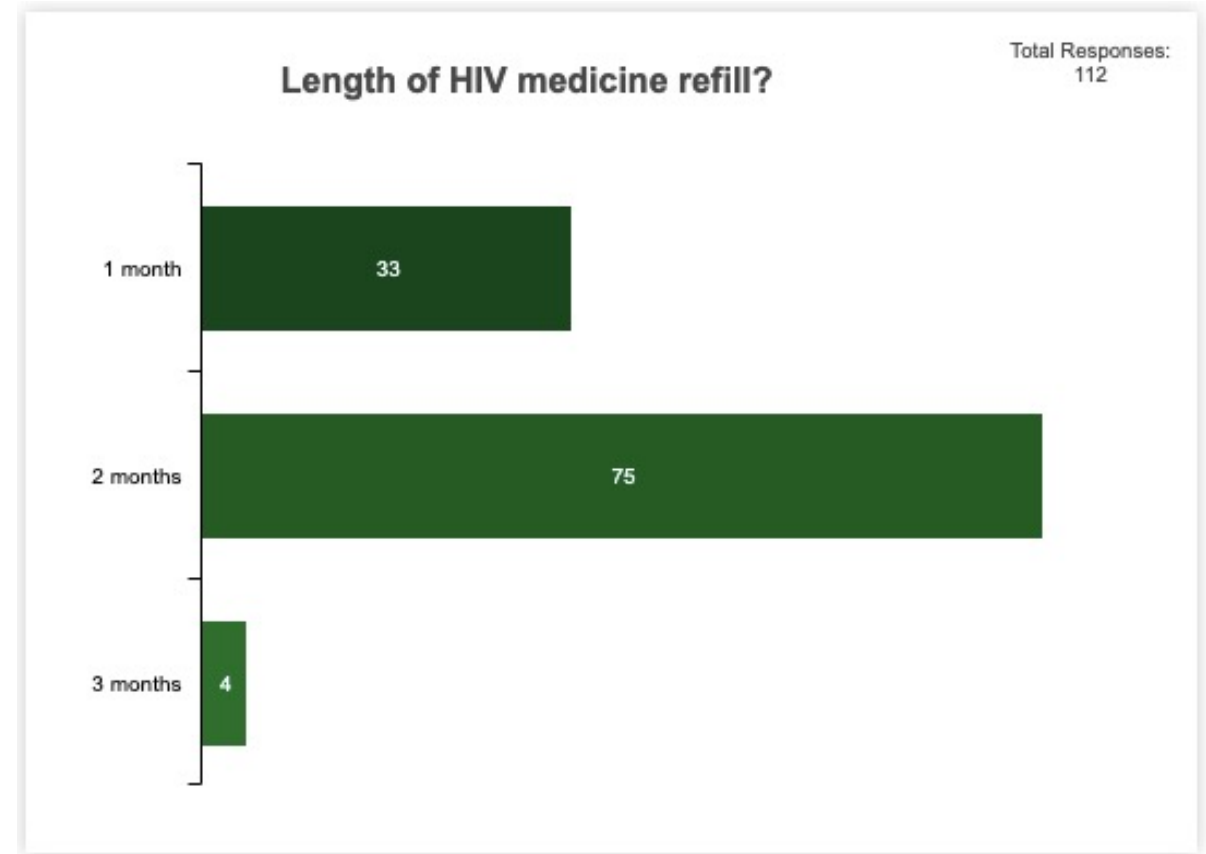

# Short supply of ARVs

Almost 49.1% of PLHIV reported that they collect their ARV's at an Adherence Club, another 41.2% collect at a Quick pick up point at the clinic

All PLHIV should receive at least 2 months supply of ARVs at a time, with commitments that this would increase to 3 months — however 39% of PLHIV reported less than this.

# ARV refill length variable across facilities. Large numbers of PLHIV in the Capricorn District are getting 2 month supply.

Province	District	Facility	Length of HIV medicine refill?						
			1 week	2 weeks	3 weeks	1 month	2 months	3 months	6 months
Limpopo	Capricorn	Buitestraat Clinic	0	0	0	1	17	2	0
Limpopo	Capricorn	Perskebult Clinic	0	0	0	3	22	0	0
Limpopo	Capricorn	Seshego IV Clinic	0	0	0	7	15	1	0
Limpopo	Capricorn	Rethabile CHC	0	0	0	7	14	1	0
Limpopo	Capricorn	Nobody Clinic	0	0	0	15	7	0	0

# PROPOSED SOLUTIONS

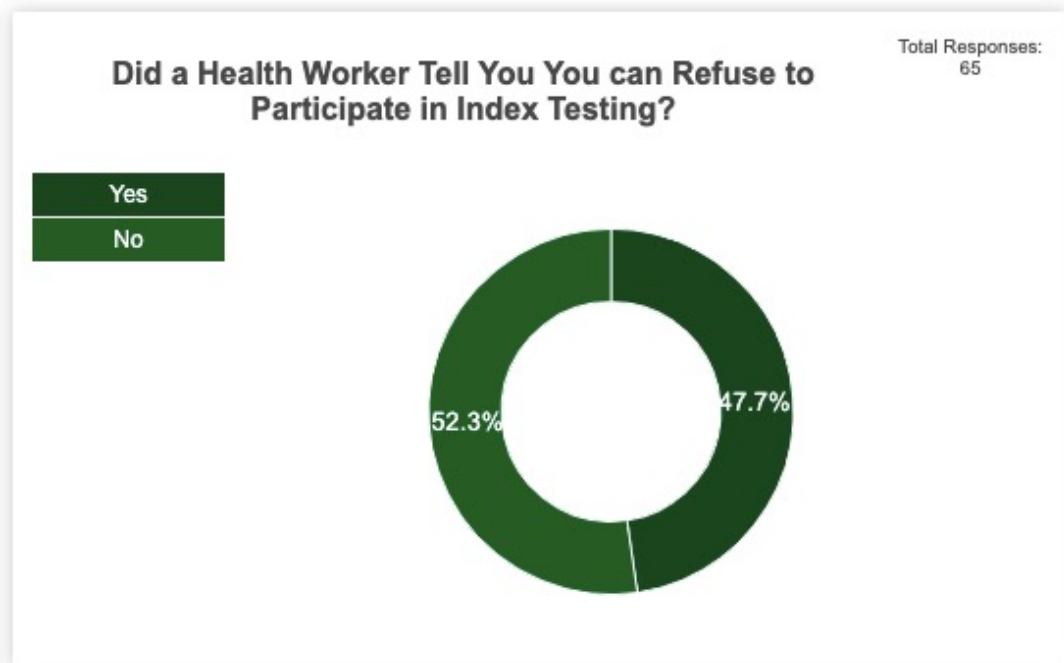

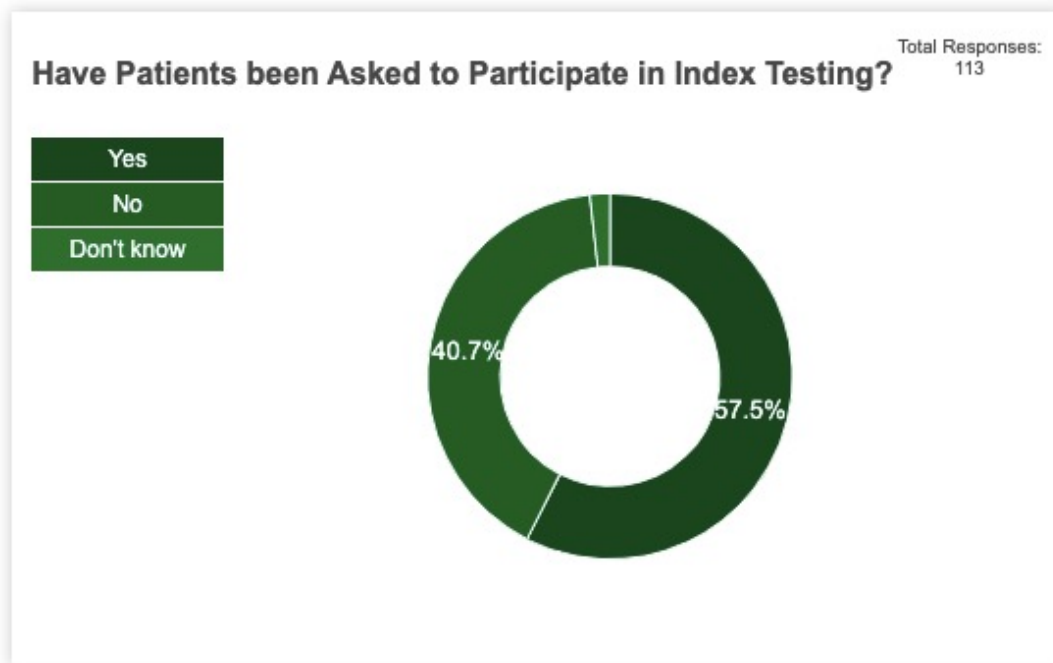

# CONFIDENTIALITY & PRIVACY

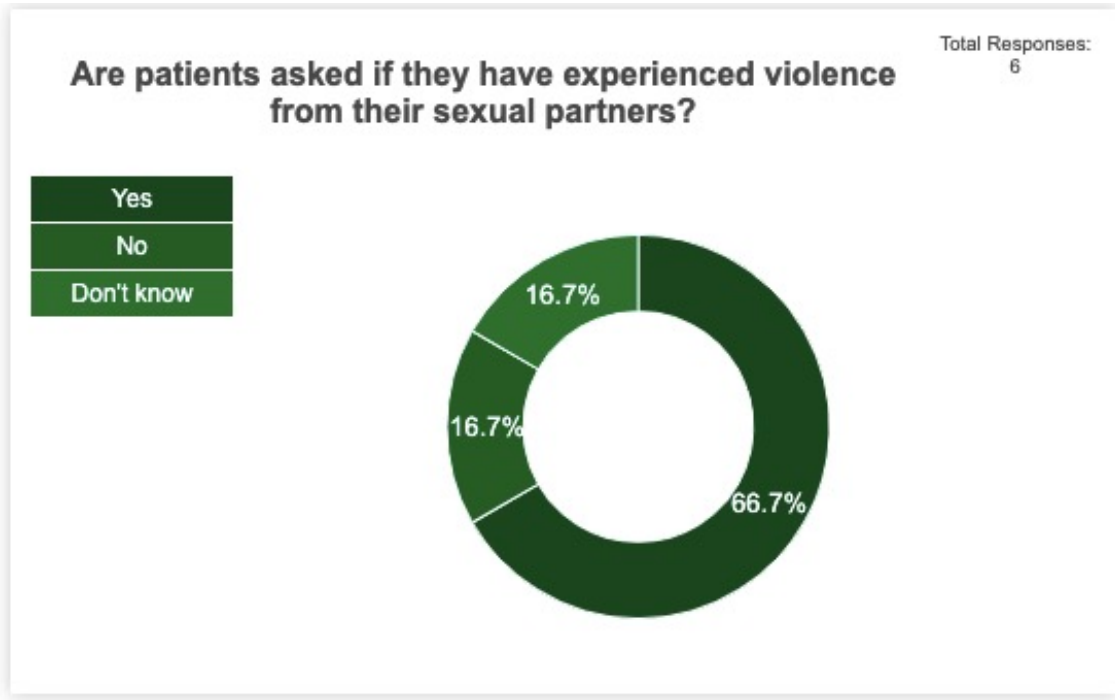

Almost 40.7% of PLHIV said that a HCW had not asked them for the names & contacts of partners for index testing. Of those who responded yes, 53.3% reported that they did not think they were allowed to “say no” or refuse to give the names of their partners.

Almost 66.7% of facilities doing index testing say they always screen clients for intimate partner violence (IPV). A majority of the Facility Managers (25%) who do screen for IPV still contact all the partners of clients regardless of reported violence. This is a major concern and violation of people's safety and privacy.

# PROPOSED SOLUTIONS

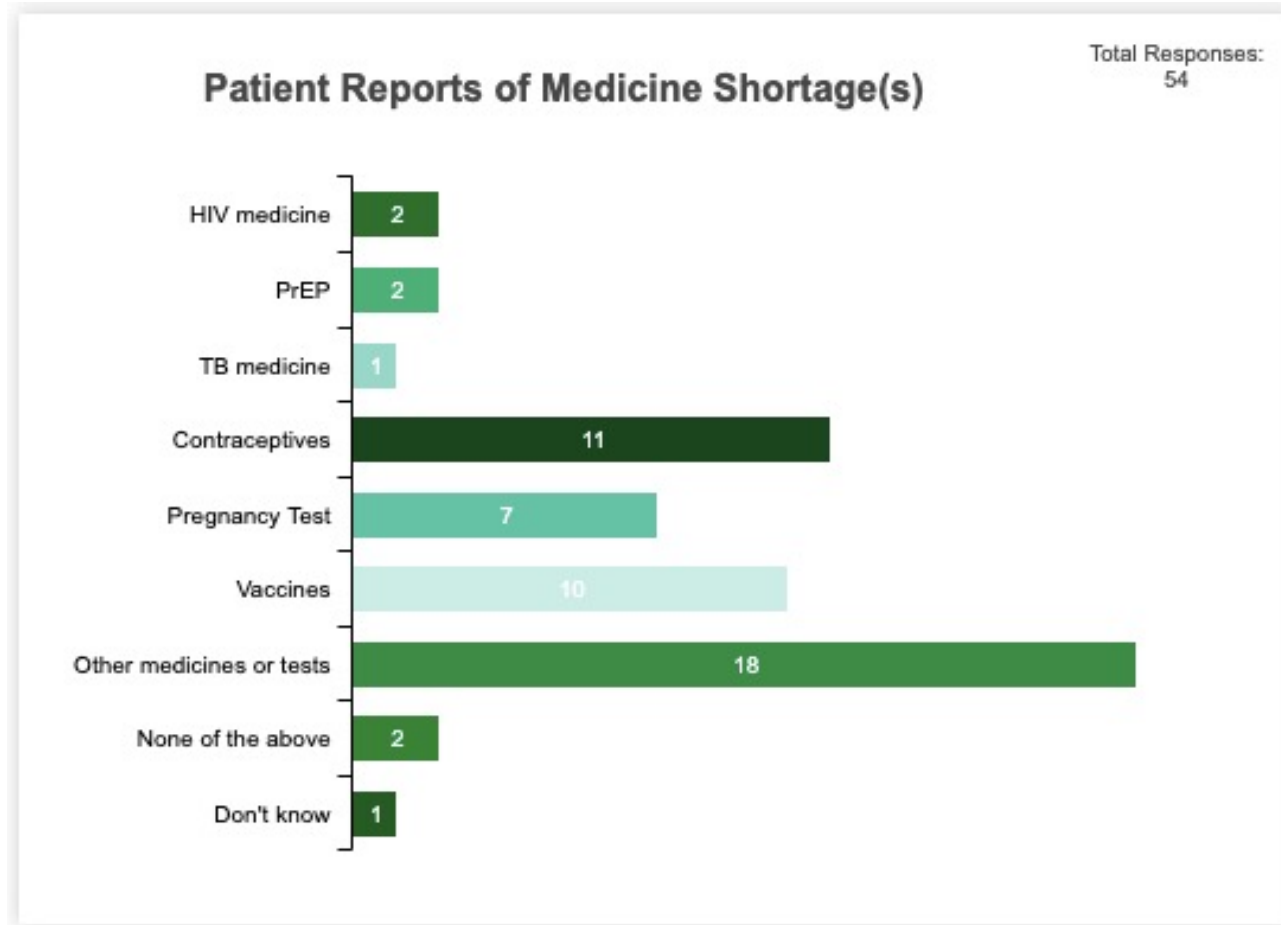

# ACCESS TO MEDICINES & STOCKOUTS

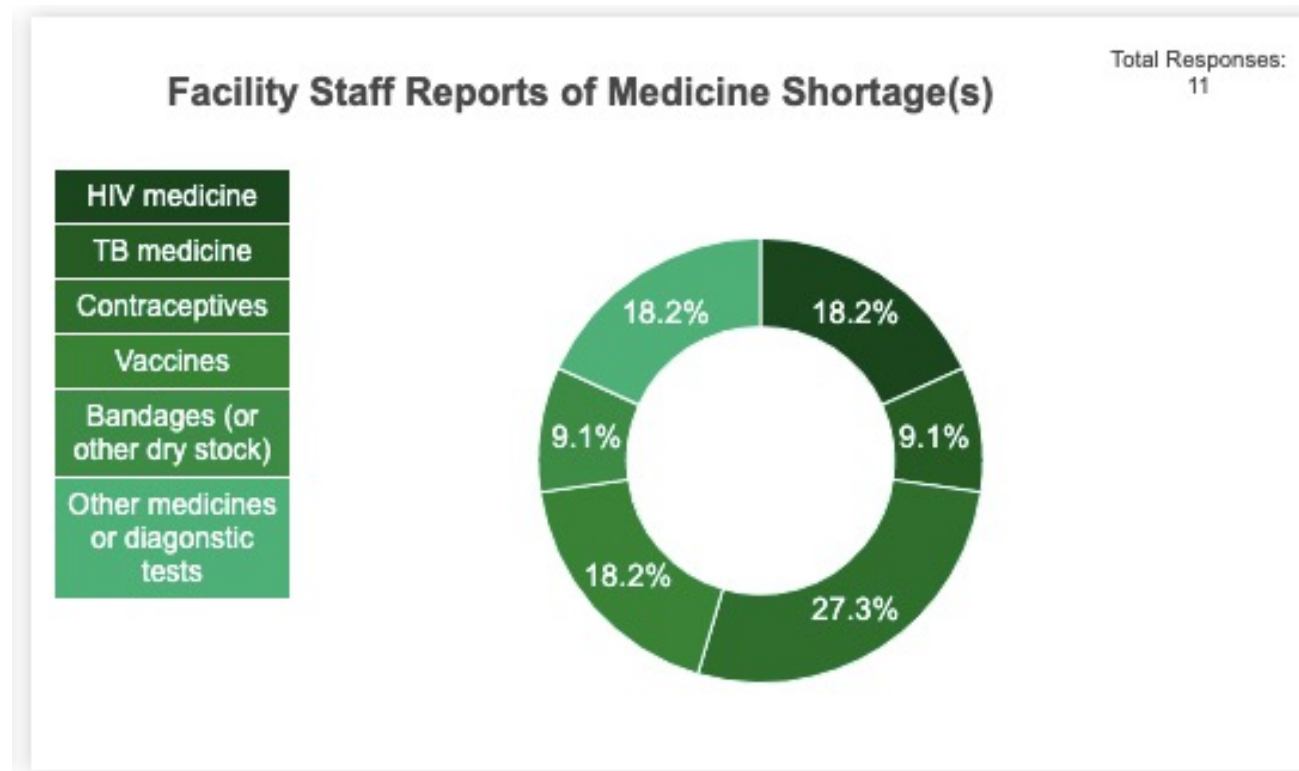

**23% of patients report that people left without the medicines they needed in last 3 months — varying across facilities. HIV medicines & contraceptives most commonly reported.**

# Facility Managers reported stockouts and/or shortages in last 3 months across provinces. Contraceptives and HIV medicine was most commonly reported
