

RITSHIDZE

SAVING OUR LIVES

Mopani District 2021 Q1 DATA REPORT

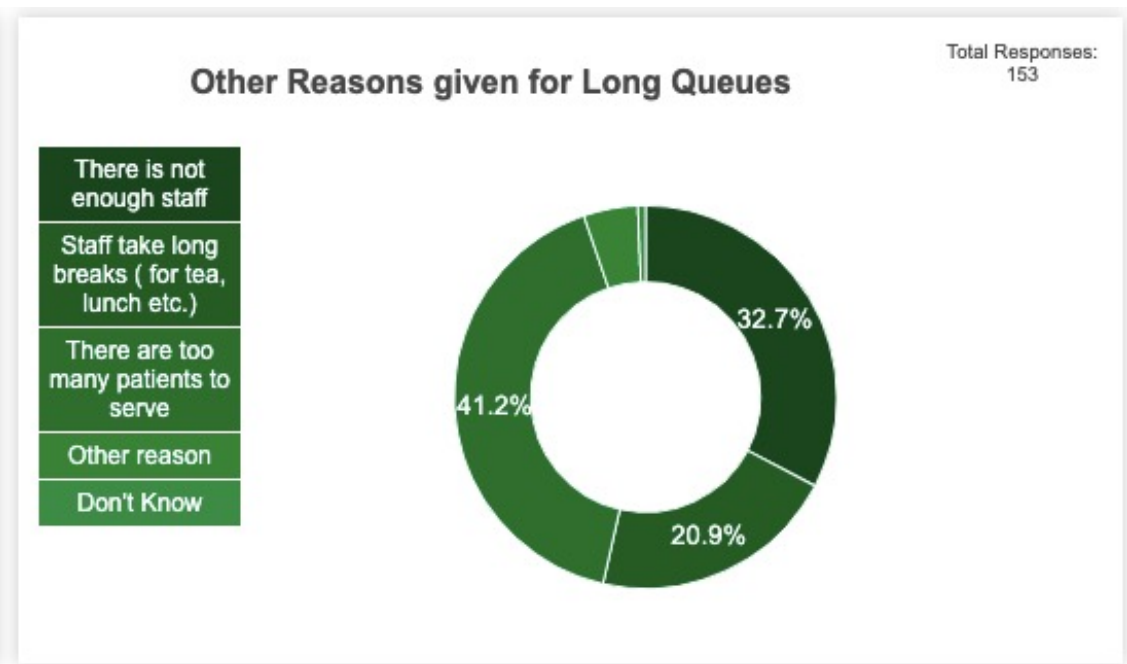

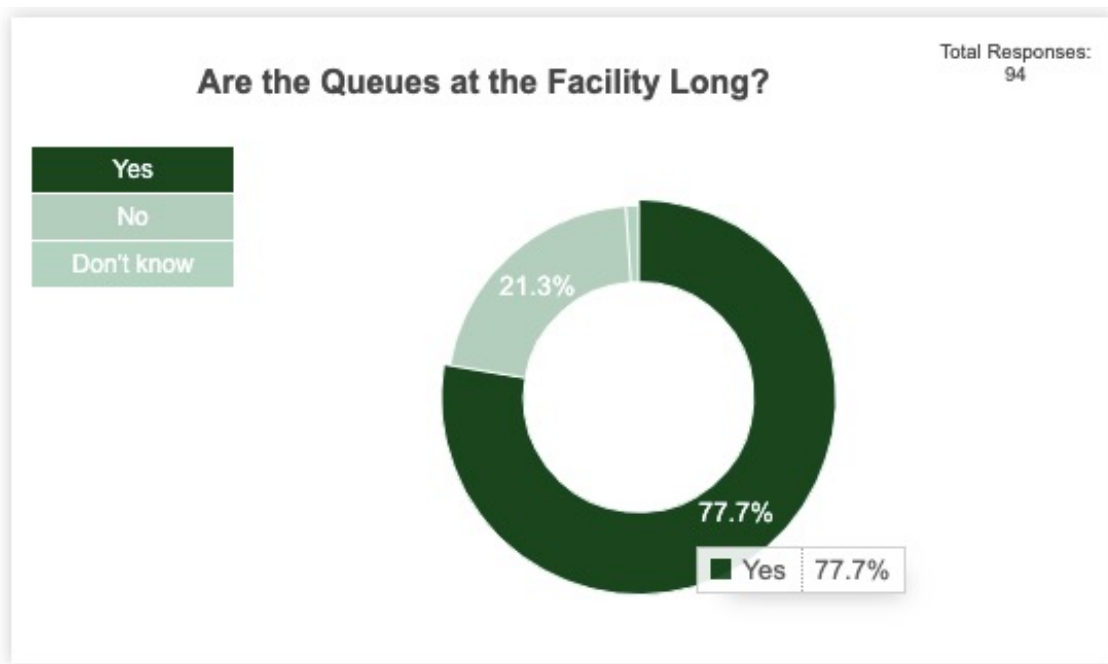

February 2021

FACILITY HOURS & WAITING TIMES

According to Ritshidze monitoring data, 77.7% of patients report long queues.

The shortest time is reported at Giyani Clinic (3hrs12min) the longest is at Grace Mugodeni (4hrs56min)

Average waiting times at facilities

Giyani CHC	3:12
Carlotta Clinic	3:18
Motupa Clinic	3:38
Tzaneen Clinic	4:49
Grace Mugodeni CHC	4:56

PROPOSED SOLUTIONS

FACILITY STAFF

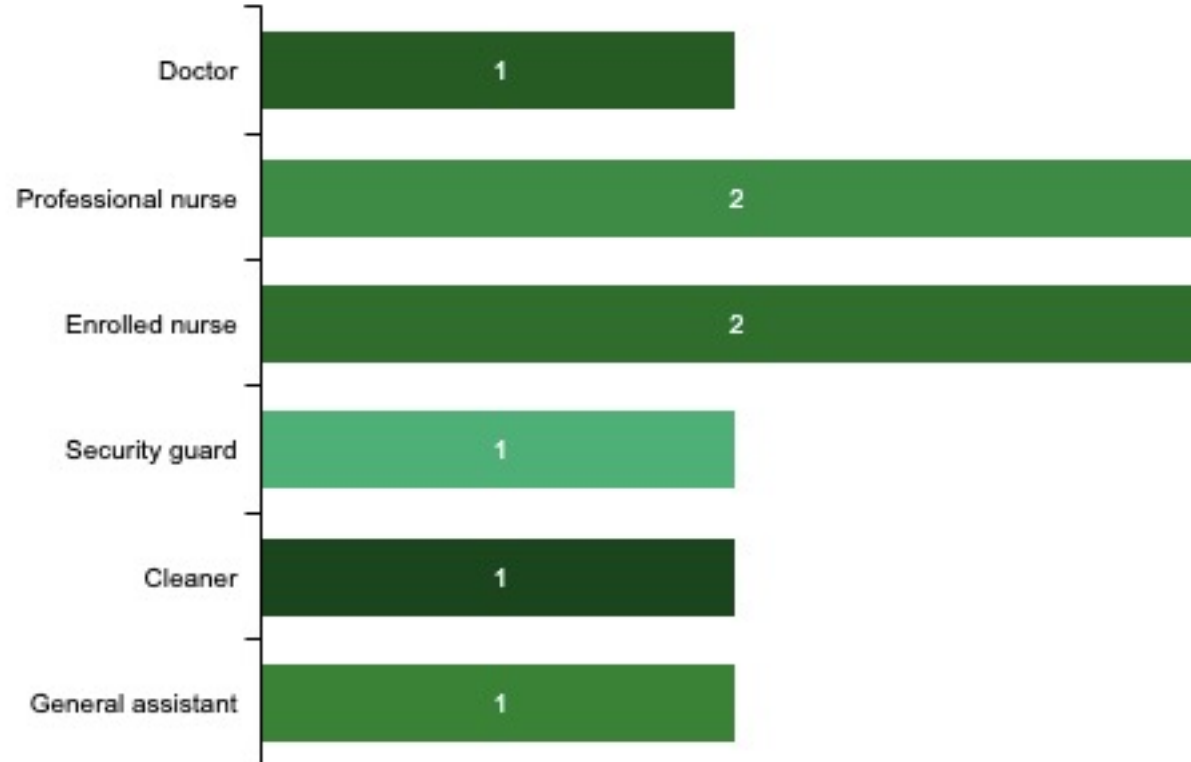

Monitoring data from Ritshidze show both patients and managers see shortages of staff

62.8% of patients said there was sometimes enough staff to meet patients' needs at their clinic.

60% of facility managers reported that there was not enough clinical and/or non-clinical staff at the facility.

Which Cadres are Understaffed?

Total Responses:
8

The cadres most commonly reported as being understaffed:

- professional nurses
- doctor
- enrolled nurses
- cleaners

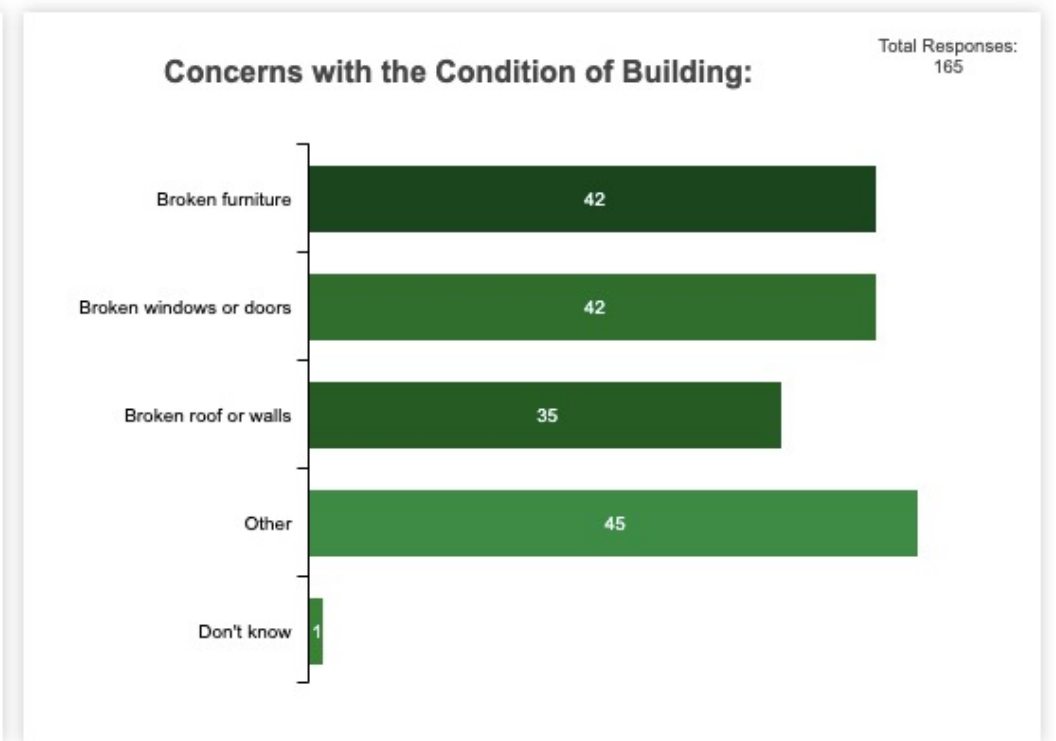

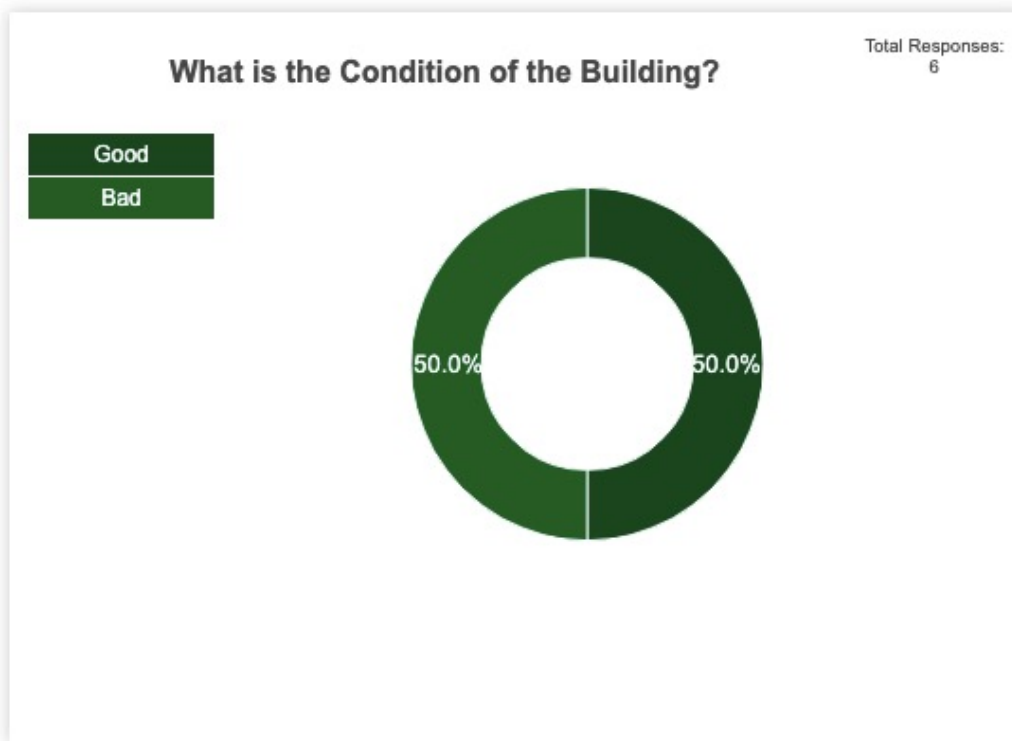

PROPOSED SOLUTIONS

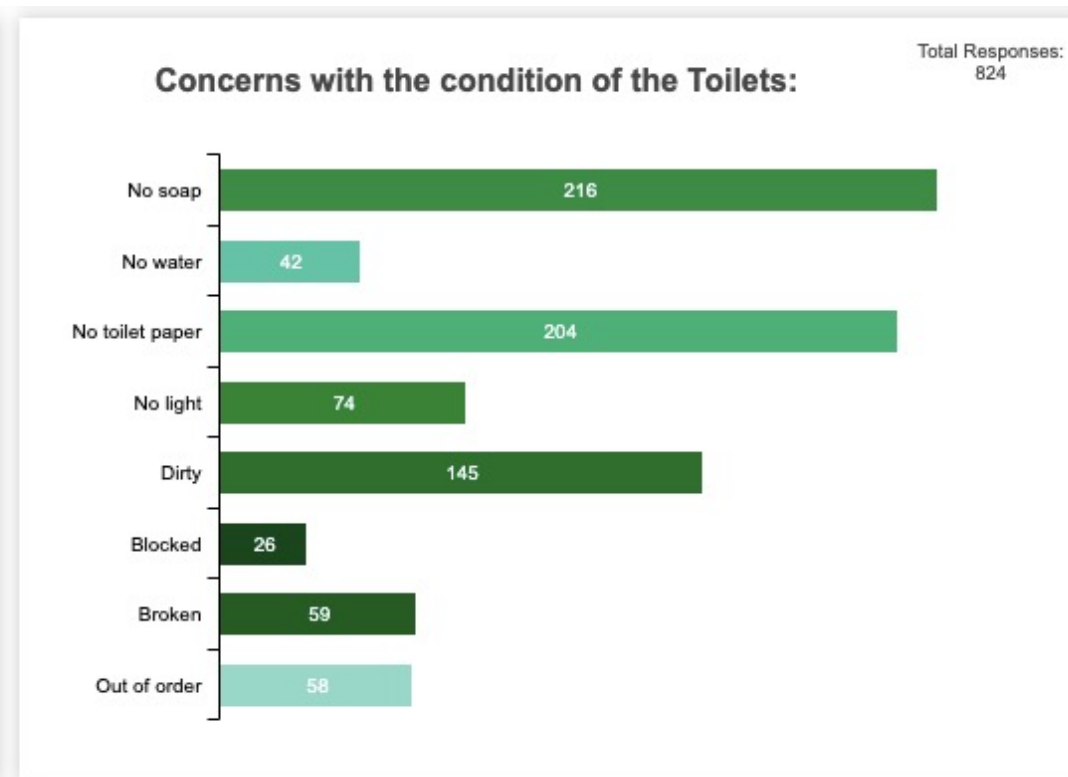

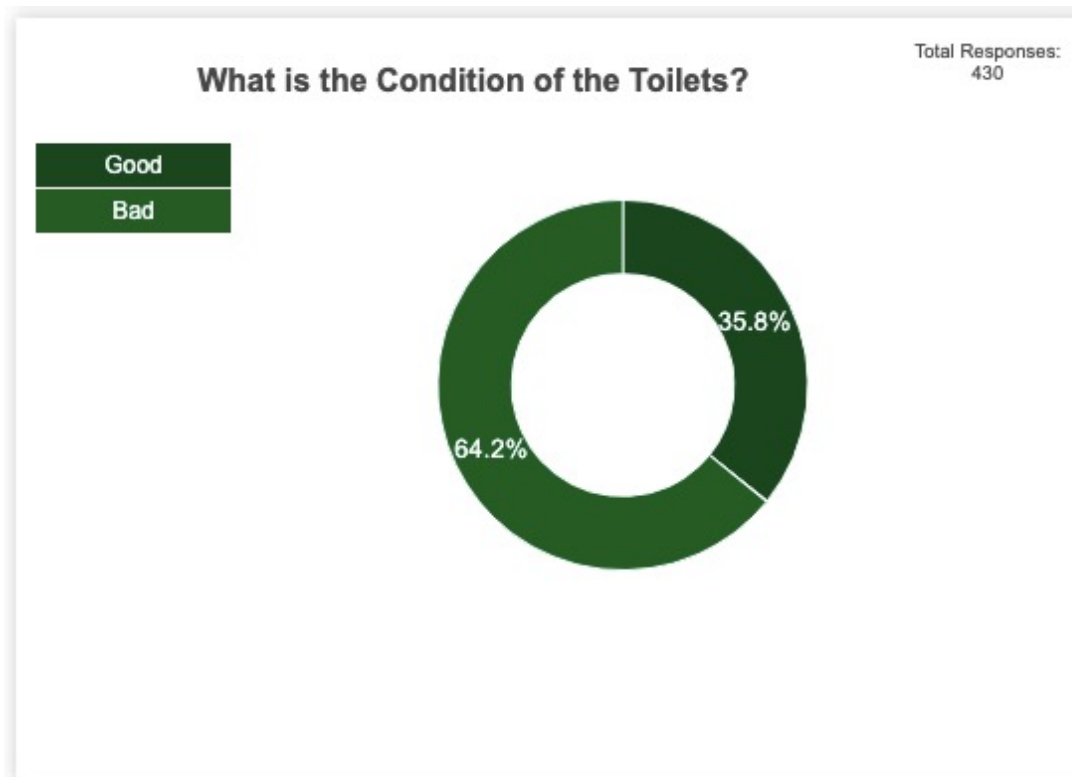

CLINIC CONDITIONS & PATIENT SAFETY

Of all the clinics observed 50% were in a bad condition

Ritshidze data shows that 64.2% of clinics are observed to have toilets in bad condition

Facility Managers at 3 sites report there is not enough space at the clinic to meet patient needs and something additional is needed

Province	District	Number of Facilities Assessed	Facility Manager: Is there enough space in the facility to meet patient's needs?			SCORE
			Yes enough space	No, we require something additional	Don't know	
Limpopo	Mopani	5	2	3	0	No, we require something additional

3 facilities need more space for private HIV counselling or testing — another 4 facilities needed more space for rooms for medical care

Province	District	Number of Facilities Assessed	What do you need more space for?								
			Patients waiting space	Rooms for medical care	Private HIV counselling or testing	Laboratory space	Files	Data captureurs	Adherence clubs	Pharmacy	Storage
Limpopo	Mopani	3	2	2	3	0	1	1	1	0	1

PROPOSED SOLUTIONS

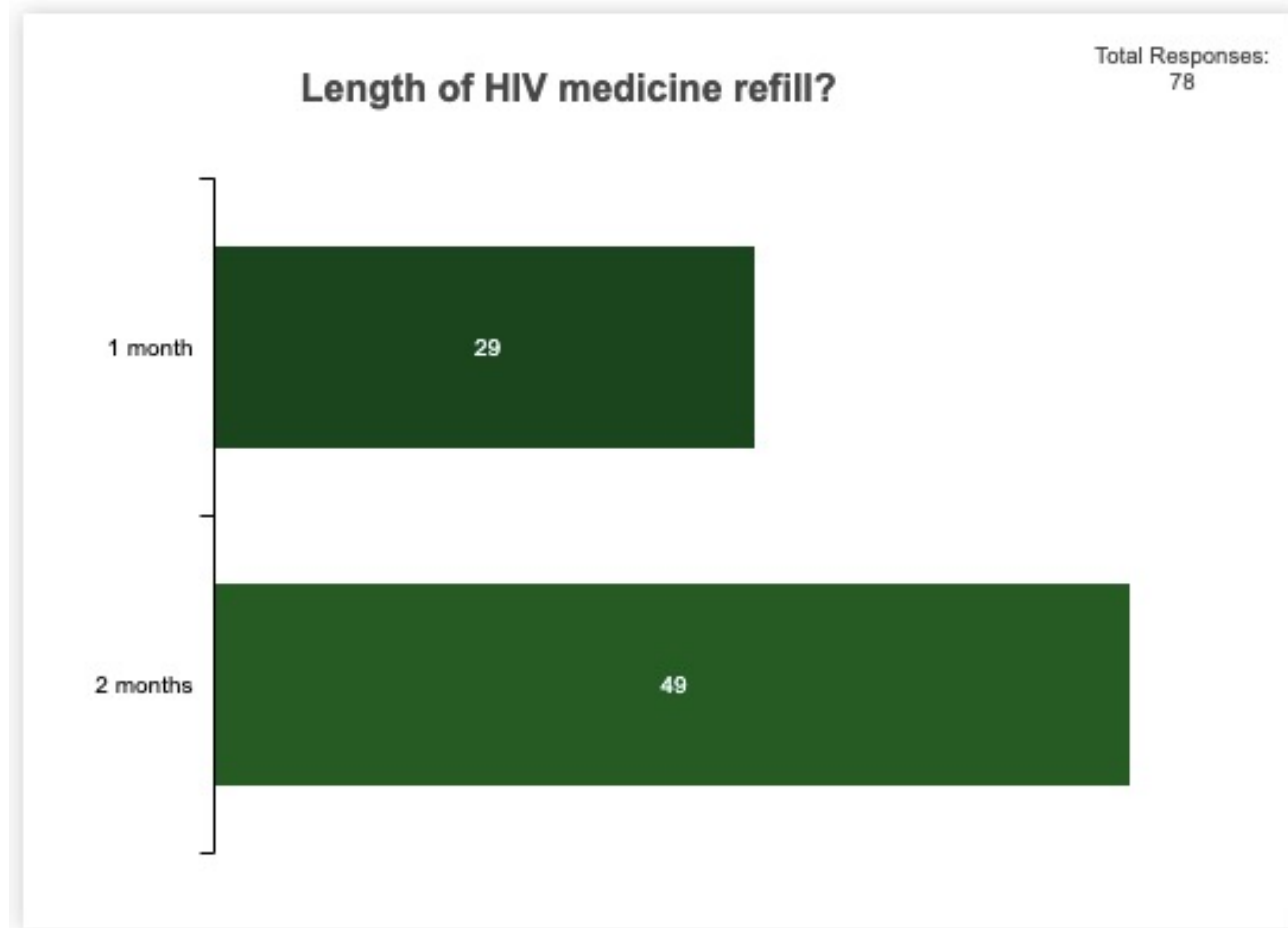

ARV COLLECTION & ACCESS

Short supply of ARVs

Almost 49.1% of PLHIV reported that they collect their ARV's at the Facility (standard medicine dispensing)

All PLHIV should receive at least 2 months supply of ARVs at a time, with commitments that this would increase to 3 months — however 37% of PLHIV reported less than this.

ARV refill length variable across facilities. Large numbers of PLHIV in the facilities monitored in the Mopani District are getting 2 month supply.

Province	District	Facility	Length of HIV medicine refill?						
			1 week	2 weeks	3 weeks	1 month	2 months	3 months	6 months
Limpopo	Mopani	Motupa Clinic	0	0	0	0	18	0	0
Limpopo	Mopani	Tzaneen Clinic	0	0	0	2	13	0	0
Limpopo	Mopani	Giyani CHC	0	0	0	8	7	0	0
Limpopo	Mopani	Grace Mugodeni CHC	0	0	0	8	7	0	0
Limpopo	Mopani	Carlotta Clinic	0	0	0	11	4	0	0

PROPOSED SOLUTIONS

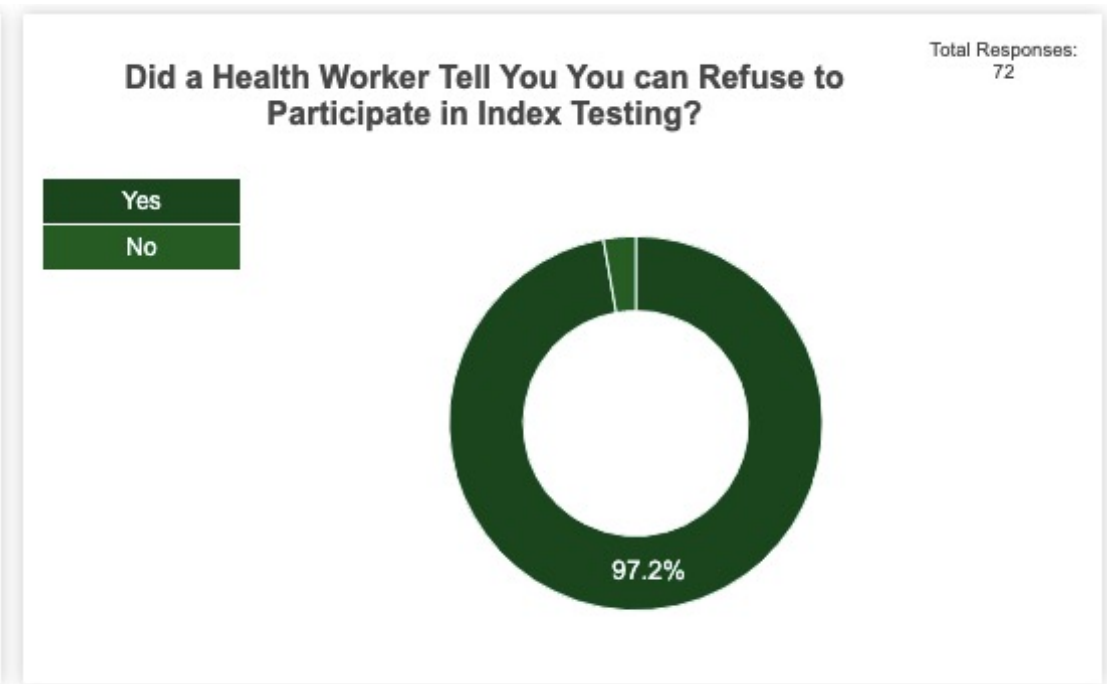

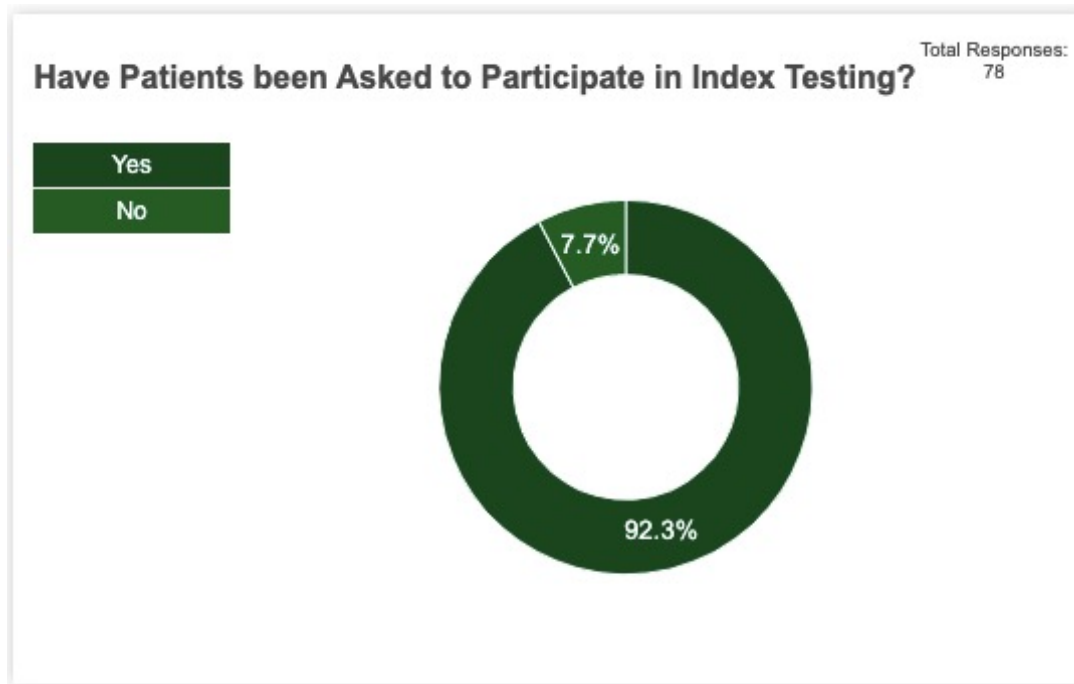

CONFIDENTIALITY & PRIVACY

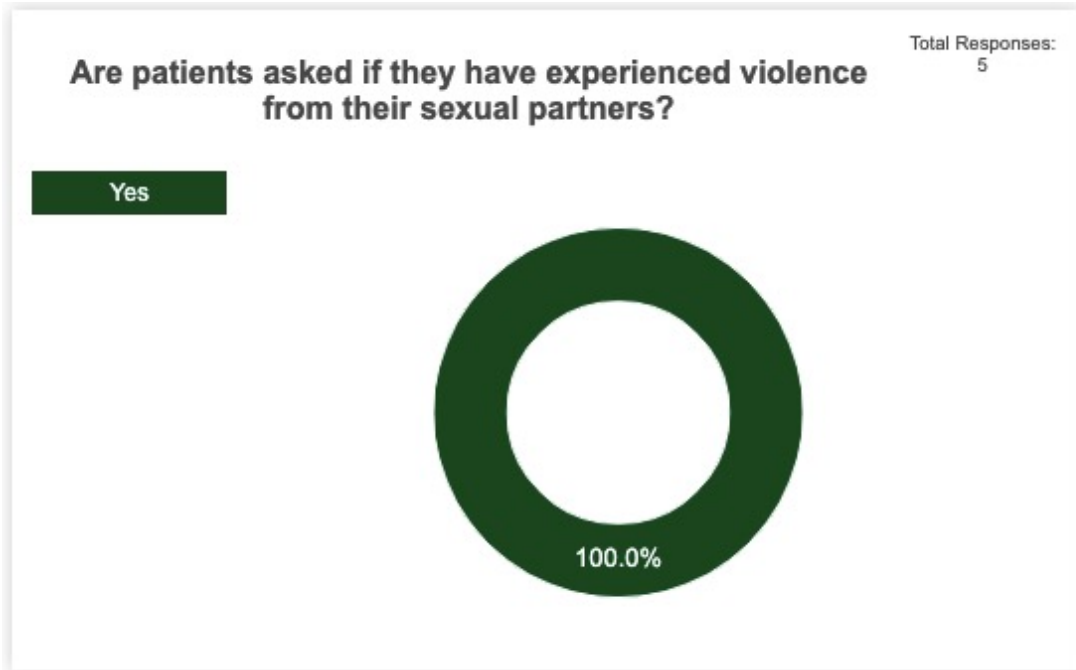

Almost 92.3% of PLHIV said that a HCW had not asked them for the names & contacts of partners for index testing. Of those who responded yes, 97.2% reported that they are aware that they were allowed to “say no” or refuse to give the names of their partners.

Almost 100% of facilities doing index testing say they always screen clients for intimate partner violence (IPV). A proportion of the Facility Managers (20%) who do screen for IPV still contact all the partners of clients regardless of reported violence. This is a major concern and violation of people's safety and privacy.

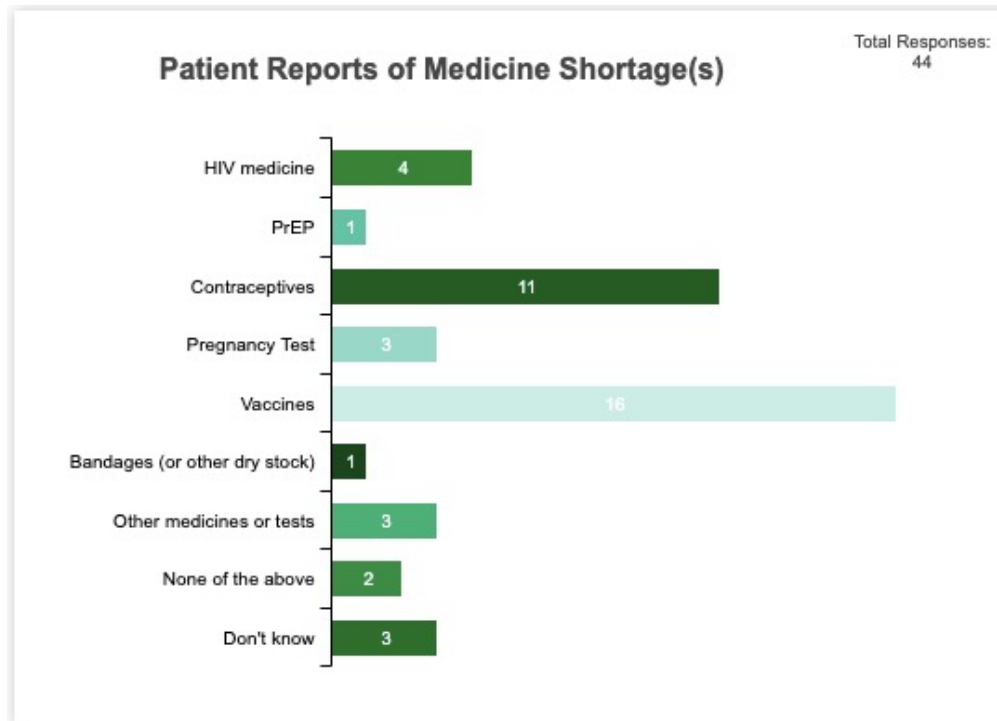

PROPOSED SOLUTIONS

ACCESS TO MEDICINES & STOCKOUTS

33% of patients report that people left without the medicines they needed in last 3 months — varying across facilities. HIV medicines & contraceptives most commonly reported.

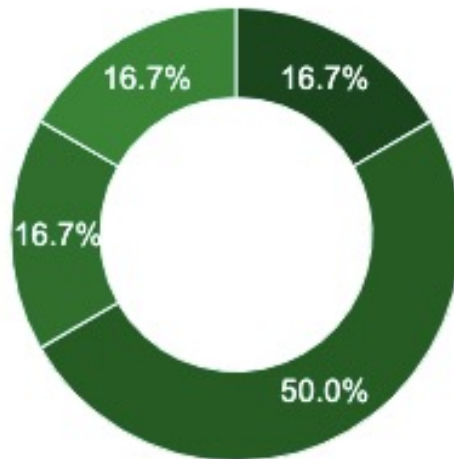

Facility Managers reported stockouts and/or shortages in last 3 months across provinces. Contraceptives and HIV medicine was most commonly reported

Facility Staff Reports of Medicine Shortage(s)

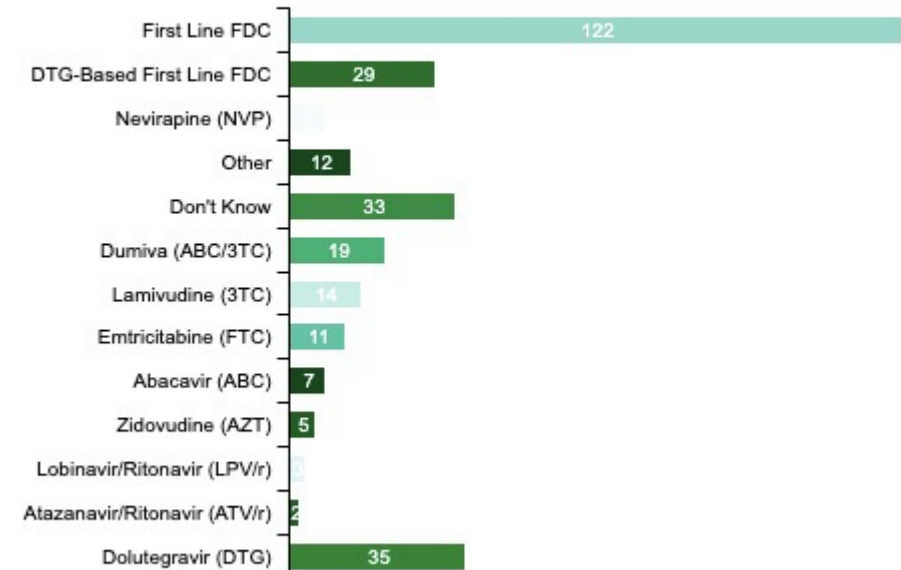

Total Responses: 6

- HIV medicine
- Pregnancy Test
- Vaccines
- Other medicines or diagnostic tests

HIV medication shortage(s)

Total Responses: 299
